

## **2014 Winners Announced in WfMC Global Awards for Excellence in Case Management**

**June 17, 2014— Washington DC.** The Workflow Management Coalition ([WfMC](#)) is pleased to announce the winners for the 2014 Global Awards for Excellence in Case Management.

Sponsored by WfMC and supported by [BPM.com](#) and [Future Strategies Inc.](#), these prestigious awards recognize user organizations worldwide that have demonstrably excelled in implementing innovative solutions. Award winners were announced at a special gala dinner ceremony at [The BPM and Case Management Global Summit](#) Washington DC.

In 2011, WfMC inaugurated a Global Awards program for Adaptive Case Management (ACM) case studies to recognize and focus upon ACM use cases. Adaptive Case Management represents a new approach to supporting knowledge workers in today's leading edge organizations. ACM provides secure, social collaboration to create and adapt goal-oriented activities that enable informed decision-making using federated business data and content.

This year, submissions were invited for both Adaptive Case Management use cases (which is entirely under the control of the case manager) and Production Case Management (where the case manager has a lot, but not complete, scope for modification of the course of activity).
